NATURE HYGIENE is a leading provider of innovative hygiene solutions, specializing in a diverse range of products including sensor taps, hand dryers, urinal sensors, tissue dispenser, soap dispensers, and more. Committed to promoting cleanliness, sustainability, and efficiency, we offer cutting-edge solutions designed to enhance hygiene practices across various industries and sectors.

Mission Statement

Our mission is to revolutionize hygiene standards through innovative products and solutions, promoting health, sustainability, and convenience for our clients and communities.

www.naturehygieneindia.com

Core Values:

Innovation: We are dedicated to continuous innovation, leveraging the latest technology and design principles to develop advanced hygiene solutions that meet the evolving needs of our clients.

Hygiene: We prioritize hygiene and cleanliness in all our products, ensuring that they not only meet but exceed industry standards for sanitation and safety.

Sustainability: We are committed to sustainability, striving to minimize our environmental impact through eco-friendly product designs, materials, and manufacturing processes.

Quality: We uphold the highest standards of quality in every aspect of our business, from product development and manufacturing to customer service and support.

Customer Satisfaction: We prioritize the satisfaction of our customers, providing exceptional service, timely support, and solutions that deliver value and exceed expectations.

PRODUCT OFFERINGS

Sensor Taps: Our sensor taps offer touch-free operation, promoting hygiene and reducing the risk of cross-contamination in public restrooms, kitchens, and other facilities.

Hand Dryers: Our hand dryers provide fast and efficient hand drying, helping to reduce waste and improve hygiene in washrooms, airports, restaurants, and other high-traffic areas.

Urinal Sensors: Our urinal sensors detect usage and trigger flushing automatically, promoting water conservation and cleanliness in commercial and institutional restrooms.

Tissue Dispenser: Our SUS304 paper towel dispenser is perfectly suited for hygienically demanding areas. It meets all recommended hand hygiene requirements. Tissue Dispenser is ideally suited for high traffic washrooms.

Soap Dispensers: Our soap dispensers offer touch-free dispensing of liquid or foam soap, promoting hand hygiene and reducing the spread of germs in healthcare facilities, restaurants, and other settings.

Custom Solutions: In addition to our standard product offerings, we also provide custom hygiene solutions tailored to meet the specific needs and requirements of our clients.

SERVICE OFFERINGS

Consultation: Our experienced team offers expert consultation to help clients select the right hygiene solutions for their needs, considering factors such as usage patterns, space constraints, and budget.

Installation: We provide professional installation services, ensuring that all products are installed correctly and operate smoothly from day one.

Maintenance: Our comprehensive maintenance services help to keep hygiene systems in optimal condition, minimizing downtime and maximizing longevity.

Repairs: In the event of a malfunction or breakdown, our skilled technicians are available to provide prompt and reliable repairs, ensuring minimal disruption to operations.

Training: We offer training programs to educate clients and their staff on proper usage, maintenance, and hygiene protocols for our products, promoting effective implementation and optimal performance.
